Re: 21 U.S.C. Section 343(r)(6), Notification of Statements on Dietary Supplements

Dear Sir/Madam:

I hereby notify the Food and Drug Administration ("FDA") of the use of statements of nutritional support in the labeling of Citrin<sup>®</sup> and Chromium, a dietary supplement.

Statements being made in the labeling of Citrin<sup>®</sup> and Chromium:

- (1) NOW<sup>®</sup> Citrin<sup>®</sup> and Chromium is a dietary supplement containing *Garcinia cambogia* Extract (Citrin<sup>®</sup>) and Chromax<sup>®</sup>. The active constituent in Citrin<sup>®</sup> is (-)-Hydroxycitric Acid (HCA), which has been shown in non-clinical studies to limit the liver's production of fat from carbohydrate. Chromax<sup>®</sup> is a patented, biologically active form of chromium, a trace mineral that serves as a necessary cofactor for insulin. The synergistic combination of Citrin<sup>®</sup> and Chromax<sup>®</sup>, therefore supports healthy blood glucose levels, while helping you achieve your weight management objectives.

To the best of my knowledge, and based upon information and belief present at the time of the executing of this notice, I certify that the above information is accurate and complete. NOW Foods possesses substantiation that the statements are truthful and not misleading.

Michael Lelah, Ph.D.
